in narrow spaces and on
slopes.**

MADE IN ITALY

The MT-500 is a mini-dumper equipped with three wheels, with a solid steel structure. It is designed with motor, batteries and other component protected to work in construction, demolitions and industry. It is also useful in agriculture, and in garden building works. The full control with reduced effort of the skip emptying operation is granted by the "Easy tipping lever". The "Performance" version here described, is suitable for particularly heavy works and is equipped with high load motor axles and hours meter (ideal for rental situations). Anchor points for the machine lifting are included in the standard version.
