

#### AUGER DRIVES & TRENCHERS FOR MACHINES UP TO 8 TON MACHINERY ATTACHMENTS NORTH AMERICA

## WE ARE DRIVEN TO MAKE YOU SUCCEED

WITH PROVEN EXPERTISE IN PROVIDING MACHINERY ATTACHMENT SOLUTIONS.

## A TRUSTED REPUTATION FOR DELIVERING QUALITY PRODUCTS THAT PERFORM

WGA PD

Founded in 1981, Digga is the original designers and manufacturers of planetary gearboxes and machinery attachments for the earthmoving and construction industry. A global company, committed to local supply and manufacturing, Digga has 5 company owned facilities around the world to ensure prompt, efficient service through our extensive professional dealer network.

**DIGGA** is your trusted source for new machinery attachments for the earthmoving and construction equipment industry

## **DIGGA MANUFACTURING – NOT JUST ASSEMBLERS** WE ARE THE ORIGINAL MANUFACTURER

#### North America - Dyersville, Iowa

100% Privately owned, Digga is the largest manufacturer and exporter of planetary gearboxes for machinery attachments. Formed in 1981, by founder Stewart Wright, Digga pioneered pendulum drilling in Australia and today, produce the largest range of compact high torque planetary drives for the pendulum drilling and attachment industry. The largest attachment manufacturer in Australia, globally Digga specializes in drilling and trenching attachment solutions.

North America is proudly supplied by our newest company owned manufacturing facility in Dyersville, Iowa. Centrally located for fast distribution and service to North America. The facility is a state of the art Fabrication, Assembly and Powder coating plant.

A multi-award winning company, recognised for our innovative approach to leading edge design and superior manufacturing quality, Digga is committed to providing total solutions world wide for drilling and trenching.

5 company owned manufacturing facilities around the world, 24 hour a day engineering support.

Digga products are distributed by a dedicated, professional dealer network. Local country manufacturing and professional support ensures fast efficient service.

#### **OUR PHILOSOPHY**

Simply, to help our customers be successful.

The trend these days is for companies to outsource to low cost countries.

We endeavour to make an affordable product, but are not willing to sacrifice our goals, or our product quality.

#### QUALITY **SERVICE RELIABILITY** GUARANTEED

## **DRILLING & TRENCHING MACHINERY ATTACHMENT SPECIALISTS**

#### **AUGER DRIVES**

- Skid Steer or Backhoe.
- Most comprehensive range to maximize your machines performance

 DIGGA planetary, powered by EATON hydraulic motors – Guaranteed performance.

- For all machine types, diversify your Excavator, Tractor,

#### ACCESSORIES

- A total solutions provider, DIGGA provide a comprehensive range of accessories to enhance performance and optimize your returns.
- Manufacturers and installers

#### **ROCK DRILLING**

• Providing the right solutions for a variety of host machines. Choose from our multipurpose combination augers for all ground conditions or dedicated rock augers for heavy duty rock drillina.

#### TRENCHING

- Turning host machines into multipurpose, high return tool carriers.
- Quick attach, easy connection for Skid Steers, Excavators and Backhoes.
- High performance attachment with great return on investment.

## **AUGER DRIVES**

## **THE MOST ADVANCED AUGER DRIVE YOU'VE EVER OWNED OR OPERATED**

NOT JUST AN ASSEMBLER, DIGGA ARE THE ORIGINAL **GEARBOX DESIGNERS AND MANUFACTURERS** 

OUR CORE EXPERTISE 500 FT LBS – 360,000 FT LBS **AND EVERYTHING IN BETWEEN** 

#### **OUTPUT HOUSING**

In a joint effort with Eaton we have developed a range of custom hydraulic motors specifically designed for attachments, utilising EATON Geroler technology. The new designs significantly reduce the weight and overall length of the drives.

The hydraulic motor is integrated into the input housing. By merging the motor with the input housing, allowing direct connection to the gearset, we have eliminated the need for several gearbox components.

The new design significantly reduces the weight and overall length of the drives.

potential leak points.

for drilling.

#### **INTEGRATED MOTOR AND**

**POWERED BY** 

FAT•N

The high flow range (6000 Series) has an integrated pressure relief valve. No more bulky valve block. Eliminating several hydraulic fittings reducing

Hydraulic motor port locations have been relocated to be in the ideal location. This places your hydraulic hoses and fittings at a location and angle that is ideal

#### MORE COMPACT DESIGN, LESS MAINTENANCE

No compromise in quality, gears are precision machined from a high grade alloy steel, specifically formulated for the manufacturing of high performance gears.

Compact design allows for greater length under the drive for augers or pile installation, drives can go down the hole for added length when drilling.

#### **DESIGN AND DEVELOPMENT**

Digga utilizes advanced 3D modeling software, finite analysis, cyclic testing, and extensive in field testing to ensure a product that performs, day in and day out.

#### **EXTENSIVE WARRANTY**

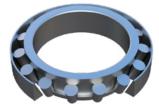

#### **2 PIECE SHAFT DESIGN**

The Digga shaft is a separate component to the planetary carrier, isolating the planetary gears from the pushing, pulling and bending forces generated by the machine.

Highest shaft pullout rating in the industry, with heavy duty, custom designed lock nut.

Lifetime warranty on shaft pullout.

#### **HIGHEST SIDE LOAD RATINGS**

More than double the side load capacity of any other gearbox on the market. Under torgue load, the Digga two piece shaft design ensures there is no increased load on the bearings. The bearings do the job they were designed for, efficiently maintaining axial and side loading.

## AUGERS

#### **TRUE CUT AUGERS DIGGA AUGERS CUT A TRUE SIZED HOLE, NOT AN OVERSIZED HOLE**

Digga True Cut design ensures a 12" auger, drills a 12" hole. Built tough with heavy duty pipe, shallow pitch flights and high efficiency cutting heads to maximize your drilling performance. Fitted with a range of quality wear parts providing superior wear and performance.

#### **DIGGA CUTTING SYSTEMS**

The cutting head is the most crucial part of the auger and this is where Digga technology exceeds the rest of the market. Digga cutting heads are optimised for the most efficient cutting angles and rotational cutting efficiency. Choosing the right cutting head with correct teeth and pilot combinations is essential to ensuring maximum customer satisfaction.

rocks. Available in earth or multi-faced tungsten (MFT) providing longer wear life and greater cutting performance.

#### **ROCK/COMBINATION AUGER**

**TAPER TEETH** (ALL GROUND CONDITIONS) (RC6, RC8, RC10, RC11)

#### **TAPER TEETH DESIGN THE ULTIMATE ALL PERFORMANCE AUGER**

The angle and geometry of the teeth to the pilot is the key to the efficiency in which these augers perform. Essentially two augers in one, this auger is fitted with Tungsten Taper Teeth for the ultimate ripping ability in fracturable rock, permafrost and general earth conditions.

#### **ROCK AUGER**

**ROTATING ROCK PICK TEETH** (SHALE/ FRACTURABLE ROCK) (DR6, DR11)

#### **HEAVY DUTY AUGER** FOR DEDICATED ROCK DRILLING

DIGGA'S Rock augers - heavy duty engineered design, with high efficiency cutting heads to maximise your rock drilling performance. Fitted with a range of quality wear parts providing superior wear and performance. N.B. Not suited for earth or clay drilling.

## **AUGER WEAR PARTS**

#### TRULOC **BLADED TEETH TO SUIT A4 AUGERS**

Digga's new TRULOC tooth range allows the tooth to be secured in 3 different ways; Use 1, use 2, or use them all. The range also features an easy to remove pin, stabilizing channels and the Digga quality that you've come to expect. The TRULOC teeth are suitable for light to moderate ground conditions.

#### PADLOCK

TM-3

MULTI FACED TUNGSTEN

**BOLT ON TEETH** 

40/50 tooth configuration allows you to choose between a 40° or a 50° cutting angle.

**TO SUIT AB4 AUGERS** 

**BLADED TEETH TO SUIT A6 & A8 AUGERS** 

TM-C-3

Padlock tooth retaining system ultilises heavy duty rubber pads vulcanised onto the metal legs of the teeth. Ensuring your teeth are locked in tight, but allowing for easy replacement in the field.

**TAPER LOCK** 

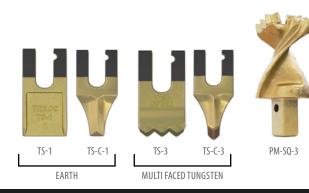

**TO SUIT ROCK/COMBINATION (RC) AUGERS** 

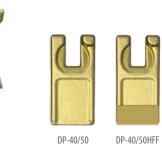

No need to have two augers for different conditions. Ideal in all drilling conditions up to hard rock. Cut a clean clear hole in soft earth and clay and have the ultimate ripping ability in fracturable rock.

**ROTATING ROCK PICK TO SUIT ROCK AUGERS** 

Ideally suited for fracturable rock, concrete and abrasive conditions. dimpled retainer provides increased holding power in grooved blocks.

## **TELESCOPIC EXTENSION MOUNT**

#### **NEED THAT EXTRA REACH? EFFECTIVELY INCREASING YOUR REACH** FOR ADDED DRILLING DEPTH OR **HELICAL PILE INSTALLATION**

- Designed to be used with Drives up to 16,000 ft/lb
- Unique design gives the operator greater range & visibility

## **MACHINE MOUNTS AND ACCESSORIES**

## **MACHINE MOUNTS**

**DIGGA MANUFACTURES A RANGE OF MOUNTS** FOR EXCAVATORS OF UP TO 80T. CONFIGURATIONS **INCLUDE FIXED AND LOOSE PIN.** 

**DOUBLE PIN MOUNT** 

**CRADLE MOUNT** 

#### **BACKHOE MOUNTS**

Designed to provide safer drive unit transportation between holes, the backhoe cradle hitch is available with optional carry strap.

#### **SKID STEER LOADER MOUNT**

Digga manufacture a fixed or optional side shift mount for most skid steer loaders, backhoes, telehanders and mini machines. The optional Side Shift frames feature a slide cradle which allows the user to offset the attachment mounted on the frame, enabling trenching and drilling close to structures.

## **CEMENT MIXER**

**CONNECTS TO YOUR EXISTING DIGGA AUGER DRIVE** Digga Cement Mixer can mix anything from cement to fertilizer, it fits quickly and easily to your Digga Auger Drive

(Auger Drive sold separately) **FEATURES** 

- Easy connection. Simply pin cradle to existing auger frame and add mixer bowl. Change from drilling to mixing in under 2 minutes.
- Cement mixing attachment to suits Digga auger drives and frames only. Also available for mini machines.
- Maintenance free.

A floating tyne design offers unparalleled safety for skid steer loaders. Unlike forklifts, skid steers are able to crowd their pickup past horizontal allowing the machine to be placed in an unsafe position which could cause it to tip over. Furthermore, putting the machine's weight on the tynes may cause them to weaken or break. Digga's pallet fork design allows the tynes to swing freely from a single fixed point ensuring load and operator safety.

- Tynes load rating tested to ISO 2330 Standards.
- 3300 lb and 4000 lb load ratings available.
- Safety guard folds down for compact storage.
- Machine entry step can be mounted on either side.

## DIGGALIGN

#### INDICATES WHEN THE AUGER OR PIER IS STRAIGHT

The New Diggalign Inclinometer was developed for contractors where accuracy is key. Ideal for augering, screw anchoring, piling and core barrelling applications.

Designed to show the operator when the top of the pylon/pile/ auger is off plumb, helps to maintain accuracy throughout the installation

#### **FEATURES**

- 2 Options available
- *High definition with increments in 0.5°,*
- Can be retrofitted to existing drives
- Can be calibrated for angles up to 20°
- Highlights misalignment forward and aft
- Dual supply cable with both 12V and 24V

DIGGALIGN	
ENGTH	120MM
IEIGHT	35MM
VIDTH	93MM
VERALL LENGTH	146MM

## **AUGER/PIER ALIGNMENT SYSTEM**

• Standard definition with increments in 2°, recommended for piles/augers under 13ft

recommended for piles/augers over 13ft

## **2 WAY FLOW VALVE**

#### **DOES YOUR EXCAVATOR ONLY HAVE A SINGLE FLOW HAMMER CIRCUIT? NEED AN EASY WAY TO REVERSE YOUR DRIVE?**

#### **2 COST EFFECTIVE SOLUTIONS INTEGRATED AND MACHINE MOUNTED INTEGRATED VALVE**

Flow reversal Valves for easy two way (Bi-Directional) use of your drive unit. Utilising the one way flow from your hammer circuit, forward and reverse control is obtained via an electrical signal either 12 or 24volt. Rated to ensure low pressure drop for the specific valve and drive unit. (meaning more power to your drive head). Optional electrical wiring kits utilise high quality weather proof Deutsch connectors

# TRENCHERS **ENGINEERED FOR PERFORMANCE**

## **BIGFOOT TRENCHERS**

## **WORK SMARTER, WORK FASTER**

THE DIGGA BIGFOOT RANGE OF TRENCHERS ARE THE ULTIMATE IN TRENCHING PRECISION, POWER AND EFFICIENCY ENSURING **MAXIMUM RETURNS ON YOUR ATTACHMENT INVESTMENT** 

#### **NOT JUST FOR SKID STEER LOADERS**

#### **HEAD START** CRUMBER SYSTEM (PATENT PENDING)

Super heavy duty spring loaded crumber design ensures you can start trenching with the crumber in the ground. This eliminates the need to step out of the host machine once the trench has started saving you time.

A GREAT ATTACHMENT FOR YOUR EXCAVATOR OR BACKHOE. TRENCH MORE EFFICIENTLY AND MORE ACCURATELY THAN A **BUCKET OR HOE AND IN LESS TIME.** 

POWERED BY

Powered by a compact DIGGA planetary gearbox and EATON hydraulic motor, your quarantee of quality and superior performance.

#### ADVANCED HIGH VISIBILITY FOOT DESIGN

Allows the operator to see the foot ensuring the correct trenching depth is being reached. The unique design also feeds the spoil overburden back onto the chain leaving a clean working side of the trench.

#### **BARREL AND** SPOIL AUGER SYSTEM

Large barrel and spoil auger removes the spoil faster increasing efficiency and productivity. Efficient spoil clearance increases the cutting productivity of the chain by reducing the amount of dirt which falls back in the trench.

#### MINI LOADERS & WALK BEHINDS

EARTH

Cup tooth on every second station

Best for soft clean ground with no loose rocks or tree roots

#### COMBINATION

Combination of Earth and Tungsten teeth

Suitable for most applications. Cuts through hard soils, roots, soft shale and rocky ground

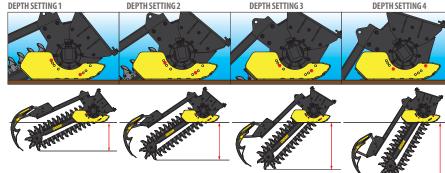

#### DIGGATAC

Full Tungsten teeth on every station

Best for rocky hard shale, asphalt and frozen ground

The Digga crumber gives you a real HEADSTART over your competitors, no need to fold back when starting your trench, it is fitted with a super heavy duty spring ensuring the crumber stays engaged with the bottom of the trench for maximum spoil removal. The unique geometry of the crumber ensure it travels over the chain for maximum engagement with the bottom of the trench from start to finish.

## **"TRENCHING MADE EASY"**

A trencher is capable of cutting a deeper narrower trench than an excavator bucket. Finely crumbled spoil is effeciently removed to one side of the trench. Spoil is able to be quickly and easily backfilled, ensuring minimal disturbance to the surrounding work areas. As the name implies, the adjustable Skid Foot provides the operator with precision depth control and ensures the spoil auger has optimum ground clearance so you don't rob valuable horse power when trenching.

## **INDUSTRIAL GRADE BROOMS**

Optional safety guard

Machine entry step

**SWEEPER PICK UP BROOM** 

#### FEATURING 60", 72" AND 84" WIDTHS WITH A **POLY OR POLY-WIRE BRUSH SYSTEM**

U.S.A. designed and manufactured for industrial, municipal or construction jobs. easy to attach and simple to operate. A reversible cutting edge helps cut loose caked-on mud, while the sweeper's poly bristles deposit dirt and debris inside the container which can be dumped when full. Ideal for warehouses, machine • Quick change core/brush head sheds, parking lots, job sites, and for dust containment.

- Easy to use built-in brush adjustment
- handles no tools required
- Fast brush change time
- Quick-Attach mounts for skid steer loaders
- Durable powdercoated finish
- Reverse flow and brush for dust pan sweeping
- Eaton motor
- Optional gutter brush and/or water kit
- Replaceable cutting edge on bucket

#### **SWEEPER ANGLE BROOM**

#### FEATURING 72", 84" AND 96" WIDTHS WITH MANUAL **OR HYDRAULIC 30° RIGHT & LEFT ANGLE**

U.S.A. designed and manufactured to commercial grade standards for heavy duty sweeping of dirt, snow and other • Reverse flow and brush for dust and sweeping unwanted material. It quickly mounts to your skid steer or tractor loader.

- Fold-away stands
- Quick Attach mount
- Durable powdercoated finish
- Eaton motor

- Quick change core/brush head
- Optional fold down cover
